

INDEX TO VOLUME THIRTEEN (Original Articles)

A

- Adenoacanthoma of the sigmoid colon, 390
- Adenocarcinoma in colonic and rectal polyps, 194
- Adenocarcinoma, intussuscepting of the ileocecal valve, 456
- Adenocarcinoma, mucinous, concurrent with colitis cystica profunda, 460
- Adenocarcinoma, transformation of a pedunculated colonic polyp to?, 382
- Adenocarcinomas, primary of appendix and colon concurrently, 42
- Adenoma (adenomatous polyp), colitis cystica profunda in, 387
- Adenomas, colonic, rationale for resection as treatment of choice, 47
- Adenopapillomas over lipomatosis of the ileocecal valve, 255
- American Cancer Society plans for a long-range study of colonic and rectal cancer, 108
- Analgesia, trichloroethylene inhalant in office practice, 138
- Anastomoses, colonic, effects of drains on, 17
- Anus, imperforate in the adult, 247
- Appendix, carcinoma of, primary, associated with carcinoma of the colon, 42
- Appendix, carcinoma metastatic to, 336
- Arderne, John, life and contributions, 8

B

- Barium enemas, avoidance of complications during, 31
- Barium enemas, necrotizing proctitis caused by injection into the wall of the rectum, 333
- Barium enemas, rectal perforations during, 29
- Blood, occult in feces, pathologic significance, 425
- Bone, sarcoma of, familial, in a polyposis coli family, 119
- Bowel, physiology of, 290

C

- Cancer, colorectal, American Cancer Society plans for a long-range study, 108
- Cancer, colorectal, localized, palliative radiation therapy for, 112
- Cancer, rectal, analysis of 171 cases, 308
- Cancer, rectal, results of treatment 10 to 20 years later, 26

- Cancer-family syndrome and heritable solitary colonic polyps, 362
- Cancers, multiple, of the large bowel, 316
- Carcinoids of the large intestine, 211
- Carcinoma, advanced, response to 5-fluorouracil and survival without severe antitumor drug toxicity, 421
- Carcinoma, appendiceal, primary, associated with carcinoma of the colon, 42
- Carcinoma, colonic, obstructive, cecostomy in relief of, 207
- Carcinoma, colorectal, intralymphatic 5-fluorouracil and radioactive gold as adjuvant to surgical operation for, 201
- Carcinoma, colorectal, variants that do not metastasize to lymph nodes, 243
- Carcinoma in colonic and rectal polyps, 194
- Carcinoma *in situ* of the colon, 376
- Carcinoma metastatic to the appendix, 336
- Carcinoma, polypoid, of the colon, histopathologic diagnosis, 116
- Carcinomas, colonic and rectal, staging of, 302
- Cecostomy in relief of obstructive carcinoma of the colon, 207
- Cecum, perforation due to adynamic ileus, 252
- Chromosomes, leukocytic, in patients with familial polyposis of the colon, 368
- Colitis cystica profunda concurrent with mucinous adenocarcinoma, 460
- Colitis cystica profunda in an adenoma (adenomatous polyp), 387
- Colitis, ischemic, 283
- Colitis, ulcerative, in Turkey, 62
- Colitis, ulcerative, treatment with hydrocortisone enemas, 355
- Colon, carcinoma *in situ* of, 376
- Colon, motor action, recent studies, 225
- Colon, rupture of, familial spontaneous, 394
- Colon, transverse, volvulus of, 397
- Colostomy, complications of, 448
- Colostomies, office management of problems, 401
- Colostomies, rehabilitation clinic for, 59
- Continence, defecation and, some new concepts, 81
- Crushing injury to the pelvis causing loss of the anus and rectum, 34
- Cyst, submucosal, solitary in the sigmoid colon, 454
- Cysts, presacral developmental in mother and daughter, 127

INDEX TO VOLUME THIRTEEN (Original Articles)

A

- Adenoacanthoma of the sigmoid colon, 390
- Adenocarcinoma in colonic and rectal polyps, 194

- Carcinoma, colorectal, variants that do not metastasize to lymph nodes, 243
- Carcinoma in colonic and rectal polyps, 194
- Carcinoma *in situ* of the colon, 376
- Carcinoma metastatic to the appendix, 336
- Carcinoma, polypoid, of the colon, histopathologic diagnosis, 116
- Carcinomas, colonic and rectal, staging of, 302
- Cecostomy in relief of obstructive carcinoma of the colon, 207
- Cecum, perforation due to adynamic ileus, 252
- Chromosomes, leukocytic, in patients with familial polyposis of the colon, 368
- Colitis cystica profunda concurrent with mucinous adenocarcinoma, 460
- Colitis cystica profunda in an adenoma (adenomatous polyp), 387
- Colitis, ischemic, 283
- Colitis, ulcerative, in Turkey, 62
- Colitis, ulcerative, treatment with hydrocortisone enemas, 355
- Colon, carcinoma *in situ* of, 376
- Colon, motor action, recent studies, 225
- Colon, rupture of, familial spontaneous, 394
- Colon, transverse, volvulus of, 397
- Colostomy, complications of, 448
- Colostomies, office management of problems, 401
- Colostomies, rehabilitation clinic for, 59
- Continence, defecation and, some new concepts, 81
- Crushing injury to the pelvis causing loss of the anus and rectum, 34
- Cyst, submucosal, solitary in the sigmoid colon, 454
- Cysts, presacral developmental in mother and daughter, 127

D

- Defecation and continence, some new concepts, 81
- Diverticular disease, colonic, emergency surgical operations for, 235
- Diverticulitis, acute, progress report, Australasian survey, 444
- Diverticulitis, colonic, in a community hospital, 231
- Diverticulitis, isolated, of the sigmoid colon, 39
- Drains, detrimental effects on colonic anastomoses, 17

E

- Education of the surgeon in diseases of the colon and rectum, 1

F

- Feces, occult blood in, pathologic significance, 425
- Fibrodysplasia, abdominal, and polyposis coli, 121
- Fissures, anal, sliding skin grafts in treatment, 372
- Fistula, radiation-induced rectovaginal, pull-through operation for, 451
- 5-Fluorouracil in treatment of advanced carcinoma, response and survival without severe antitumor drug toxicity, 421
- 5-Fluorouracil, intralymphatic, and radioactive gold as adjuvant to surgical operation for colorectal carcinoma, 201

G

- Grafts, skin, sliding, in treatment of anal fissures, 372

H

- Hemangioma, cavernous, of the rectum, 344
- Hematoma, pelvic masquerading as rectal abscess, 341
- Hemorrhoidectomy by amputation and anoplasty, 429
- Hemorrhoidectomy in the office, 438
- Hidradenitis suppurativa, perianal, surgical treatment, 441
- Hydrocortisone enemas in treatment of ulcerative colitis, 355

I

- Ileitis following ileostomy, 143
- Ileocecal valve, adenopapillomas over lipomatosis of, 255

- Ileocecal valve, intussuscepting adenocarcinoma of, 456
- Ileostomy, ileitis following, 143
- Ileum, junction with large intestine, anatomic and clinical aspects, 220
- Ileus, adynamic causing cecal perforation, 252
- Imperforate anus in the adult, 247
- Infection, effects on healing of colonic wounds, 124
- Intestine, large, carcinoids of, 211
- Intestine, large, multiple cancers of, 316
- Intestine, physiology of, 290
- Intestine, small, ischemia of, 275
- Ischemia of the small bowel, 275
- Ischemia, roentgenographic findings in, 294
- Ischemic diseases of the bowel, 275, 283, 290, 294
- Ischemic proctitis with obliterative vascular change, 470

L

- Lipomatosis of the ileocecal valve, adenopapillomas over, 255
- Lymph nodes, colorectal cancers that do not metastasize to, 243
- Lymphatics, regional, administration of 5-fluorouracil and radioactive gold as an adjuvant to surgical operation for colorectal carcinoma, 201

M

- Massachusetts General Hospital, development of proctology in, 147
- Meningitis complicating perforating colorectal wounds in combat casualties, 297

P

- Patient, surgical, preoperative evaluation (symposium), 175
- Perforation, cecal due to adynamic ileus, 252
- Perforation, colonic, familial spontaneous, 394
- Perforations, rectal during barium enemas, 29
- Peristalsis, colonic, recent studies, 225
- Pilonidal disease, 330
- Pilonidal sinuses, open semiprimary closure operation for, 215
- Polyp, pedunculated colonic, transformation to adenocarcinoma?, 382
- Polypoid lesions of the colon, histopathologic diagnosis, 116
- Polyposis coli, abdominal fibrodysplasia and, 121
- Polyposis coli family, familial sarcoma of bone in, 119

- Polyposis, familial of the colon, leukocytic chromosome determinations in patients with, 368
- Polyps, colonic and rectal, carcinoma in, 194
- Polyps, colonic, heritable solitary, and the cancer-family syndrome, 362
- Preoperative evaluation of the surgical patient (symposium), 175
- Proctitis, ischemic, with obliterative vascular change, 470
- Proctitis, necrotizing, caused by injection of barium sulfate suspension into the wall of the rectum, 333
- Pull-through operation for radiation-induced rectovaginal fistula, 451

R

- Radiation therapy, palliative, for localized colorectal cancer, 112
- Rectum and anus, loss of, treatment with a reversed ileal loop, 34
- Rectum, cancer of, results of treatment 10 to 20 years later, 26
- Rectum, duplications of, 133
- Rectum, motor action, recent studies, 225
- Resection as treatment of choice for colonic adenomas, 47
- Rosser, Curtice (in memoriam), 33

S

- Sarcoma of bone, familial, in a polyposis coli family, 119
- Sigmoid colon, adenocanthoma of, 390
- Sigmoid colon, isolated diverticulitis of, 39
- Sigmoid colon, solitary submucosal cyst in, 454
- Sinuses, pilonidal, open semiprimary closure operation for, 215
- Staging of colonic and rectal carcinomas, 302
- Stoma Rehabilitation Clinic, The, 59
- Stomas, office management of problems, 401
- Syme, James, life and contributions, 475

T

- Trichloroethylene inhalant analgesia in office practice, 138

V

- Volvulus of the transverse colon, 397

W

- Wounds, colonic, effects of surrounding infection on healing, 124
- Wounds, perforating, of the colon and rectum in combat casualties, meningitis complicating, 297
